**Subject:** A couple of Bradford Island questions

Hi Bob,

We have a briefing coming up for management at HQ on Thursday. My counterparts at HQ have passed on a couple of questions that may come up during the briefing. I don't have answers to these, but I thought DEQ might:

- Is there congressional interest at the site: EPA has no contact with congressionals – but I'm guessing that staffers have been briefed on site progress at some point. If you have any sense, that would be great.
- Has there been any communication between the state and USACE HQ about this site? I'm guessing no, that communications have been restricted to the Portland District.
- Has Department of Energy or BPA ever been part of any discussions with DEQ regarding this site? I'm guessing no, but wanted to check.

OK, that's it for now. I'll update you on Friday.
